What Are Surfex Textured PVC Membrane Panel?

Surfex Textured PVC Membrane Panels are decorative and durable surface panels made from high-quality PVC film. They feature embossed textures that mimic wood, stone, or fabric finishes, adding depth and visual appeal. These panels are commonly used in modular furniture, wardrobes, and interior wall applications. They are moisture-resistant, easy to clean, and offer a seamless, stylish look.

109 PR-L

Panels that shape
the way light lives.

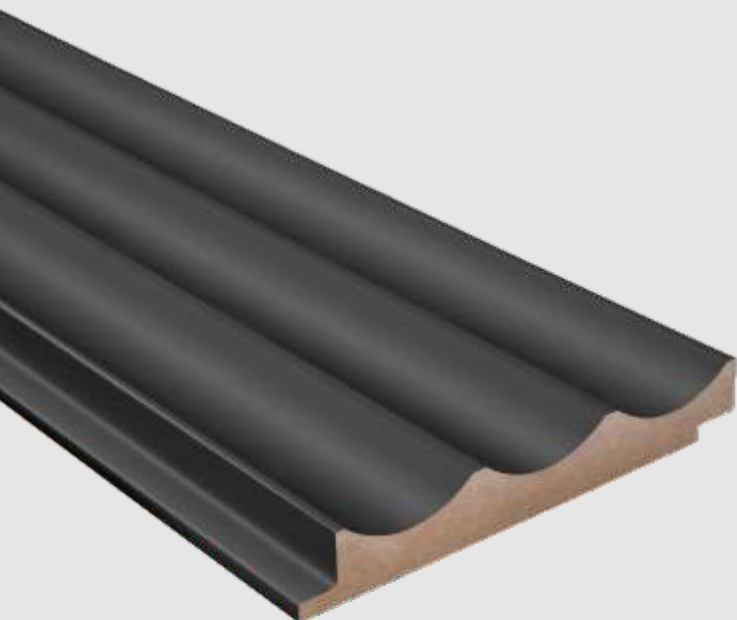

Top Layer: Textured PVC Membrane
Material: Finger joint Wood Board
Length: 2750mm
Width: 120mm
Thickness: 18mm
